that area manganese miners haven't had a suitable market for individual small production. Stephenson said he is encouraging small operators to begin mining manganese ore and trucking it to his plant.

Manganese, used principally in the manufacture of brick and coloring in clay products, as well as for water purification in the making of fertilizer, is in great demand in the United States.

He expects his plant will produce 3,000 tons of manganese annually. He says he already has a ready market for his production.

The plant is located on a five-acre tract leased from the N&W Railway.

The steel building is 50 feet high and measures 40 x 70 feet.

It is largely automated.

Ore dumped in a pit under the rail siding is carried to the top of the 50 foot structure by a conveyor which deposits it in a 825-ton capacity bin.

The ore then follows an automated route through several grinding and sorting operations by which it is reduced to individual specifications for various customers.

The finished product is bagged and shipped by rail or truck. Rail siding and truck dock loading is provided.

Vepco Contract Includes Wage Increase 3.25%

A new contract signed Monday night, April 6, by the Virginia Electric and Power Company and the International Brotherhood of Electrical Workers is for a three-year period, the company announced today.

Under the terms of the contract, which became effective immediately, Vepco management is given the exclusive right to determine the duties in each job classification.

The dispute which led to a strike of IBEW employees against Vepco was caused by the IBEW's demand that Vepco mutually agree to job descriptions for employees in every job classification covered in the contract between the parties and that such mutually agreed job descriptions be made a part of the labor contract.

Vepco refused to agree to this demand of the Union on the grounds that it would be surrendering its right to manage its business as economically and efficiently as possible in the light of changing conditions brought on by technological advances in the industry.

On the subject of wages, the Union accepted the company's offer of annual increases, effective April 7, IBEW employees will receive an across-the-board general wage increase of 3.25 per cent. They also will receive 3 per cent across-the-board general wage increases on April 1, 1965 and April 1, 1966.

Provision was made that striking employees would be reinstated to their former positions within 48 hours, and would suffer no loss in seniority.

The contract ended the Union work stoppage which began at 12 a.m. April 1. Most striking employees already have been recalled to their jobs, and all workers are expected to resume their normal duties.

The company intends to continue its investigation of the unwarranted destruction of its property during the period of the strike which resulted in great inconvenience to some of its customers.

Appomattox Division Head, '49-'50

Major P. W. Crews Drowns April 9; Second In Command, State Police

The body of Major P. W. Crews, a native of Halifax County and executive officer of the Virginia State Police, was found about 2:30 p.m. Thursday afternoon, April 9, in the Pamunkey River near Tunstall, where a boat capsized earlier.

Crews, 49, second in command of the State Police, was in charge of the Third Division of the force at Appomattox in 1949 and 1950. He left the Appomattox post to head the Fifth Division in Norfolk, Sept. 1, 1950.

He had disappeared late Wednesday night after a boat in which he and two companions were fishing capsized as they were drift-net fishing for herring upstream in the Pamunkey River. The other two men were rescued.

Rescued were Maj. H. W. Burgess, 50, field supervisor for the State Police and George Burton Littlepage, 65, former maintenance chief at State Police Headquarters in Chesterfield County.

New Kent County Sheriff D. C. McKay of New Kent County said the three and Col. C. W. Woodson, Jr., State Police Superintendent, had gone to Littlepage's cabin on a fishing expedition. It was understood that Woodson remained at the cabin while the others went out in the boat, which capsized at about 8 p.m.

Two boys, Jerry Douglas, 17, and Ryland J. Williams Jr., 19, of Quinton went to the rescue after Williams' mother called to say he had heard cries for help. They reached the scene in their boat and said they had to cut away fish netting tangled around Burgess' and Littlepage's feet before they could pull the two men into the boat.

Funeral services for Crews were held at 2 p.m. Saturday at Ramsey Memorial Methodist Church on Rt. 360, two miles west of Richmond with burial in Dale Memorial Park in Chesterfield County.

Youths Escape Local Jail

Two youths who escaped Sunday afternoon from Appomatox County Jail under the pretext of washing the jail windows were taken into custody early Monday, Sheriff L. L. Stanley reported.

The boys, age 18 and 15, from Lynchburg Training School and Hospital, had recently been convicted of breaking and entering and each sentenced to five years the sheriff said.

A woman employed as a babysitter for Jailer H. A. White, who lives with his family at the jail, was working Sunday during the absence of the jailer and his wife.

Sheriff Stanley said the youths told the woman they were supposed to wash windows but had nothing to do it with. When the woman brought cleaning items, the boys dashed by her and escaped, Stanley said.

The two escapees were picked up early Monday on a secondary road. They had traveled only about three miles from jail.

Eloise Rosser Crowned Friday As "Miss Appomattox" For '64

"Miss Virginia" crowns "Miss Appomattox" as other contestants, at right, clap to show their approval.

A pert and pretty Home Economics major, who did her practice teaching in Roanoke, will return to Roanoke this summer as "Miss Appomattox" to compete in the Miss Virginia competition.

She is Miss Ella Louise Rosser who was crowned with a glittering tiara by the reigning Miss Virginia, Miss Dorcas Campbell at the climax to the Junior Woman's Club Beauty Pageant on Friday evening at the Appomattox High School.

Known to friends as "Eloise", the winner is the daughter of Mr. and Mrs. James H. Rosser, Pamplin, Va. She is a senior at Longwood College, and a past 4-H state winner in Dairy Foods. She's also a pianist, having studied piano for five years.

First runner-up was Merlyn Kay Martin, daughter of Mr. and Mrs. R. Russell Martin, of Oakville, and a senior at Appomattox High School. Second runner-up was Barbara Ware Thomas, Radford College freshman, and daughter of Lt. and Mrs. L. E. Thomas, of Appomattox.

For her talent contribution Friday evening, the winner displayed a coordinated wardrobe of separates which she had made together with an original script about how well designed, attractive clothes can make a gal-shy guy say 'Yes' during Leap Year.

An acute case of laryngitis kept Eloise from delivering her own narration during the talent portion of Friday's pageant. A friend, Mrs. Lorraine Baldwin, who sponsored her through the Pamplin Beauty Shop, filled in. Eloise also had to whisper in M.C. Howard Keller's ear to answer the questions put to each of the finalists in the closing interview of the contest.

Mrs. J. D. Pendleton was escort and accompanied by Miss Jackie Cobb, co-editor of the pageant, the new title holder appeared Sunday evening on Channel 13's "Springtime in Virginia", annual parade of local beauty pageant winners.

Other TV coverage was given by Roanoke Channel 10 which gave viewers a filmed look at the downtown Appomattox Parade Friday afternoon and the presentation of a Key to the city by Mayor Dr. S. R. Lawson. Glenn Howell's Farm Show, Saturday morning, included views of the parade and news that Eloise had won.

Miss Virginia, and the Junior Club President, Mrs. Peggy Lawson were interviewed by Station WDMS, Lynchburg along with the co-director of the pageant, Mrs. June Chenault.

Official portraits for the Roanoke pageant are one of the next items on the new winner's schedule. The Junior Club will sponsor Eloise in the summer state contest in Roanoke.

Supervisors O.K. School Budget

Appomattox County Supervisors, meeting Friday, April 10, gave their approval to the proposed School Budget for 1964-65 as presented by Superintendent Earl J. Smith.

They also discussed the purchase of a recording device made necessary by legislation passed by the General Assembly this year which requires either a court stenographer or a recording device to be used in every court case concerning a alleged felony and in every civil case concerned with a financial involvement over $300. Commonwealth Attorney George Abbitt's advice concerning the purchase is being sought, with action on the purchase postponed to a later meeting.

Smith has estimated that $823,449 will be needed to operate Appomattox County Schools next year.

Miss Virginia, and the Junior Club President, Mrs. Peggy Lawson were interviewed by Station WDMS, Lynchburg along with the co-director of the pageant, Mrs. June Chenault.

Official portraits for the Roanoke pageant are one of the next items on the new winner's schedule. The Junior Club will sponsor Eloise in the summer state contest in Roanoke.

The budget estimate runs almost $80,200 less than last year's estimate of $903,600.50. Funds included $184,000 allocated for construction as compared with the new budget of $54,000 for construction. An addition to Carver-Price School was begun this year, with the remainder of the cost allocated to next year's budget.

Small increases were noted in other departments. Administration costs: $14,420; Instruction, $509,741; Other Instructional costs, $35,670; Auxiliary Agencies, $84,390; Operation of Plant, $46,220; Maintenance of Plants, $11,400; Fixed Charges $6,749; Capital Outlay, $65,000; Debt Service $4,808.

New Broom Will Sweep Clean & Help The Blind

Brooms for Sale! That's the call of local Lions who will be offering brooms for sale on Thursday, April 23.

That old saying "A new broom sweeps clean" — is quite true, say the Lions. And new brooms will help bring new hope to blind persons in Virginia who will benefit from the proceeds of the sale.

The brooms are made by blind workers at the Virginia Workshop for the Blind, Charlottesville. Money raised will be given to Old Dominion Eye Bank Research, Incorporated, one of the recipients of local "sight conservation" projects.

Need Old Lenses, Frames

Any discarded lenses and frames from glasses may be turned in to Dr. Clyde O'Brien Sight Conservation, to help other persons with sight problems. The local club helps supply new glasses and repair others.

Dr. O'Brien also keeps a file of persons wishing to donate their eyes at death for use as corneal transplants and the implantation of vitreus humor.
